

# “Here Are My Personal, Unbiased, 100% No Bull \$#!^ Recommendations!”

Hundreds of people ask me for recommendations on all kinds of services and products related to Internet Marketing and business in general. **I don't give recommendations lightly!** Over the last few years I've built a list of the best-of-the-best resources that I use or have researched thoroughly for my clients and gotten rave reviews from them.

Here are a few of my handpicked resources...

## Website Resources:

### Website Hosting

**Third Sphere Hosting** is my top choice for webhosting.

**Special Offer:** For a limited time, you can get a free month of hosting from ThirdSphere.

### Domain Name Registration

**GoDaddy** is my top choice for domain name registrations. I have over 25 domains registered there. The customer services is excellent, and their prices are second to none.

### Autoresponders (Hosted)

**Aweber** is the best hosted autoresponder solution that I have found. Their support is unmatched, and they provide an extremely valuable service at a great price.

### Autoresponders (Do-It-Yourself)

**AutoResponse Plus** is my choice for do-it-yourself autoresponders scripts. It does require more experience and understanding to run your own autoresponder, but if you are managing very large lists, it's the only way to go. I suggest starting out with a hosted solution like [Aweber](#); then moving to AutoResponse Plus when you can afford the time and money to manage your own autoresponders.

### Credit Card Processor

**PayPal** is the obvious choice when it comes to "third-party" payment processors. Their fees are extremely low, they're recognized by millions and millions of Internet users, and it costs you nothing to sign up AND there are NO MONTHLY FEES.

### Merchant Account

**FreeAuthNet** is the best choice if you want to have your very own merchant account. They are authorized resellers of the Internet's top payment processor Authorize.Net; and they have VERY low monthly fees and NO APPLICATION FESS. (BEWARE: I've seen other sites charge between \$97 and \$297 just to apply for an account.)

### [Ad Tracking \(Hosted\)](#)

**HyperTracker** is the best choice for hosted ad tracking. If you are going to be advertising online, you need to track you advertising! HyperTracker does that for you in a very easy to use interface.

### [Ad Tracking \(Do-It-Yourself\)](#)

**AdTrackz** is my favorite do-it-yourself ad tracking script. It requires installation and a bit more experience than a hosted solution.

### [Website Audio](#)

**AudioGenerator** is my top pick for adding audio to your websites and sending audio postcards to your list. (NOTE: I have not found a do-it-yourself solution that comes close to the amazingly easy to use features of AudioGenerator.)

### [Surveys](#)

**AskDatabase** is by far the best hosted survey site on the Internet.

### [Ingenious Pop-ups](#)

**InstantAttention** has some very eye-catching pop-ups that cannot be stopped by today's pop-up blockers.

### [Affiliate Program Software \(Hosted\)](#)

**1ShoppingCart** is a completely integrated solution. It includes a Shopping Cart, Ad Tracker, Autoresponders, Affiliate Program Management, and More!

<http://www.minisitesmadeeasy.com/1shoppingcart>

### [Affiliate Program Software \(Do-It-Yourself\)](#)

**UltimateAffiliate** is by far the best do-it-yourself affiliate program management script I've found. It takes a serious commitment of time and knowledge to get it running (less than it's competitors, but I needed to warn you); but once everything is setup you have complete control over your entire program.
